

Purely Char-Power Seed Enhancer

- **Seed inoculants:** 1 pound per 250 pounds of seed
- **For soilless media:** Add 1 pound per cubic yard, mix thoroughly
- **Divot mix:** mix 1 pound per cubic yard

Contains: Azotobacter beijerinckii, Bacillus subtilis, Bacillus licheniformis, Bacillus megaterium, Bacillus coagulans, Bacillus amyloliquefaciens and Trichoderma koningii

PURELY CHAR-POWER

- Accelerates germination.
- Improves short and long term health of the plant that works throughout the plants life.
- Eliminates disease common to seedlings like damping off.
- Carbon based seed enhancement formulation containing numerous beneficial soil bacteria including *Bacillus subtilis* and *Azotobacter*.
- Charcoal acts as a natural detoxifier, a seed coating agent, and as “housing” for soil microbes.
- Can be as a dry seed treatment or mixed with water and sprayed on the seeded surface.
- One pound treats up to one acre.
