

# PURELY ORGANIC LAWNCARE

## Gluten-8 OLP™

*Gluten-8 OLP™ combines the effectiveness of Corn Gluten Meal (CGM) with the convenience of a sprayable liquid material. Lower nitrogen analysis than granular forms to help you more effectively manage turf nitrogen budgets. Exclusive formulation results from enzymatic hydrolysis of CGM and addition of a liquid carrier to provide an economical organic product for professional use. Made from EPA Section 25-b Exempt ingredients.*

### Directions

Gluten-8 OLP™ is a sprayable liquid material used as part of our Easy Mix & Spray System™ to enhance new or established turfgrass competition with crabgrass and broad leaf weeds.

Always add product to tank last, and agitate, mix or shake well before use.

**Mix:** 3 qts water to 1 qt G-8 (3:1 ratio)    **Apply:** 1 gal mix per 1000 sf in early spring.

### Storage

Store in a cool dry place out of direct sunlight. Use tank mix within 8-12 hours of mixing.

**Contents: 1 Gallon**  
**Net Weight: 9 Lbs / 4.08 Kg**

## PURELY ORGANIC GLUTEN-8

- Corn gluten hydrolysate is a water-soluble product derived from corn gluten meal through enzyme hydrolysis.
- Acts as an outstanding companion to organic weed management programs.
- 1 gallon Gluten-8 OLP concentrate treats 4000 sq ft. of turf grass.
- Highly recommended for spring green up.
